Have You Heard The G4S Theme Song?

When the marketing team at G4S Secure Solutions (USA) enlisted the services of two Texas songwriters to write a theme song, they never envisioned the reaction it would receive from company employees around the world. What started as a corporate internal relations vehicle has turned into a global fund raising effort. To learn more about the G4S Rocks initiative, go to page 12.

Payroll Information Now Available Online!

Get instant access to the information you need, when you need it. ADP iPay is a web-based payroll information solution that provides you with secure, instant access to your paychecks and W-2 data. Here's what iPay offers:

- **Instant access to pay information**—View and print your pay stubs and year-end W2s via the Internet—whenever and wherever it is convenient for you.
- **Save time and reduce paperwork**—eliminate time consuming interactions with your local office, payroll team and HR department.
- **Safe, convenient and easy-to-use**—secure and convenient accessibility helps you stay organized and informed.
- **Get ready to go green**—In the future you will have the option of going completely paperless.

Start today! It's easy! Read more about this new service on page 11.

Proceeds From Theme Song To Be Donated To Charity

With more than 625,000 employees globally—the second largest private employer in the world—G4S and its employees are hopeful their new corporate theme song entitled **Securing Your World** can achieve platinum (one million downloads) status. And in doing so, the company will raise one million dollars (\$1,000,000) with proceeds going directly to charity.

"The corporate theme song **Securing Your World** was such a hit with employees, our staff thought it would be a great vehicle to raise funds for people in need – specifically families and children who can't help themselves," said Nick Buckles, Chief Executive Officer, G4S. "I encourage G4S employees to help us make this charitable effort a success, and ask that they get their friends and family involved as well."

Go to www.G4SRocks.com to download "Securing Your World" for only \$0.99.

All proceeds will be distributed to charitable organizations around the world.

Recording artist, Jon Christopher Davis, and record producer, Sparky Pearson, penned the words and music for **Securing Your World** to help G4S Wackenhut to rebrand to G4S at the ASIS International Conference in Dallas this past October.

The song was performed at a reception attended by over 650 customers, partners and G4S employees. Requests for a downloadable music file starting pouring into G4S shortly after, and sparked the idea for the fundraiser.

"The proceeds from **Securing Your World** have the potential to make a real difference to people's lives," continued Mr. Buckles. "This is a simple and fun way for everyone at G4S to be part of something amazing. I hope you join in the effort."

Upcoming: Tradeshows and Conferences

Community Association Institute - CAI	May 4-7, 2011	Boca Raton, FL
GSA EXPO	May 10-12, 2011	San Diego, CA

Did You Know?

Multitasking isn't always a good thing.

Distracted driving killed nearly 5,500 people last year and injured 500,000 more. If you're driving, your focus should be on driving. While all distractions can endanger drivers' safety, texting is the most alarming because it involves all three types of distraction: visual, manual, and cognitive. If you're on post, your focus should be on work. Depending on your location, personal cell phones may be prohibited completely. Avoid making personal calls or texting. Taking a call or texting while a client or customer is in front of you is rude. Being considerate of others pays off for everyone.
